REVIEW 1

Prepared by : All Members	Approved by : Ngô Phước Nguyên
Project Group No : 4	

Design Plan: giftshop	Document Name: Review 1+2+3	SWD/Form No.1
Effective Date :06/05/2019	Version: 1.0	Page No:8

I. Problem Definition:

a. Introduction:

Online shopping is a form of electronic commerce (e-commerce) which allows consumers to directly buy goods or services from a seller over the Internet using a web browser. Consumers find a product of interest by visiting the website of the retailer directly or by searching among alternative vendors using a shopping search engine, which displays the same product's availability and pricing at different e-retailers.

b. Existing scenario:

The marketing around the digital environment, customer's buying behavior may not be influenced and controlled by the brand and firm, when they make a buying decision that might concern the interactions with search engine, recommendations, online reviews and other information. With the quickly separate of the digital devices environment, people are more likely to use their mobile phones, computers, tablets and other digital devices to gather information. In other words, the digital environment has a growing effect on consumer's mind and buying behavior. In an online shopping environment, interactive decision may have an influence on aid customer decision making. Each customer is becoming more interactive, and though online reviews customers can influence other potential buyers' behaviors.

Project Group No : 4	

Design Plan: giftshop	Document Name: Review 1+2+3	SWD/Form No.1
Effective Date :06/05/2019	Version: 1.0	Page No:9

II. Customer Requirements Specifications:

Website will be a 24/7 sales channel to provide customers information about the product, order online at the website at any time. Specially, customers can:

- + View detailed information about the product.
- + Search products by name or filter products by categories, types, brands and price.
- + Compare products.
- + Track recently viewed products.
- + Members have registered to manage their personal information, orders, wishlist and review product.
- + Order online and manage cart.
- + When shopping can login (member).
- + View business information (address, google map).
- Website providing business management tools (shop owner):
- + Store management: add, delete, edit components of the site
- + Report to manage business activities of the store.

III. Functional Requirement Specification

1. Guests (unregistered customers):

a. Description:

Guests can use basic functions of the website such as viewing product details, shop's information (stores, contacts, etc...), searching products, comparing products, making orders and manage carts, could view suggested products for guest in the home page, tracking recently viewed products, or signing up to become members.

Prepared by : All Members	Approved by : Ngô Phước Nguyên
Project Group No : 4	

Design Plan: giftshop	Document Name: Review 1+2+3	SWD/Form No.1
Effective Date :06/05/2019	Version: 1.0	Page No:10

b. Functional Requirement:

When customers access the home page, there should be:

- + Lists of featured products (event, holiday, etc...).
- + Links to navigate to list of shop's stores filtered by cities and have a google map with markers of stores in the map.
- + A text field to search products (auto complete when typing and display with lazy loading),
- + Links to filter products by categories, brands, types.
- + Links to other things such as about shop, terms & conditions, privacy policy, social pages (if have).

Text field to search products by name:

- + When customers typing, they should see the auto complete function which is a panel containing a list of products have their names contains the string in search field.
- + Lazy loading function: auto complete should only load the number of products in current view of the panel and continue loading when customer scroll the mouse down to view more products.

Filter products:

- + Customers should be able to filter products by categories, event or price.
- + Web page should have a section to show all categories with types in every category, all brands, a seek bar to choose price between a range.
- + List of filtered products will appear after customer click on the link of above section. List should show products in grid view or list view.
- + List should have pagination function, which let customer to choose the number of items in each displayed page (page size).

When customers click on products, they should be navigated to pages with the details information. In there, they can:

- + Add products to comparing list (maximum of 5 products)
- + Add products to their cart.
- + See list of recently viewed products (maximum of 6 products). ↗

Prepared by : All Members	Approved by : Ngô Phước Nguyên
Project Group No : 4	

Design Plan: giftshop	Document Name: Review 1+2+3	SWD/Form No.1
Effective Date :06/05/2019	Version: 1.0	Page No:11

After adding products to cart, they should be able to manage cart with follow functions:

- + Update quantities of items (quantities must be greater than 0)
- + Remove items (one by one or all at the same time) with confirmations.
- + Link to check out. ↗

Check out:

- + Give shipping information: name, phone, address, ship date, ship note (if have).
- + Choose payment method: cash, credit card.
- + A review of order's information at the final step and customers can print it.

2. Members (registered customers):

a. Description:

Guests can register on the website to become a member. After having their accounts, they can still do all function as guests but they will be able to access more features after login. After login, they can update their information including password change.

c. Functional Requirement:

Members should provide Email, Password, Name, Phone, Gender and Avatar to create an account. ↗ Members must provide Email and Password to login into the website (login page should have the function for customers to remember their login information). User can modify their information after login.

After members login:

- + Modify their information (except Email and should have function to preview new avatar before update).
- + Manage their orders: view all orders, check and print every order details.

Project Group No : 4	

Design Plan: giftshop	Document Name: Review 1+2+3	SWD/Form No.1
Effective Date :06/05/2019	Version: 1.0	Page No:12

+ Manage their wishlist: view all items, can remove items (one by one or all), and should have an confirmation for removing.

+ Make ratings for products: rate for products (from 1 to 5 stars), if rated, they can view their ratings and can update ratings. ☐

3. Admins:

a. Description:

Admins are shop's staffs. After login, they will manage information related to products and customers, follow customers' orders, diagnostic shop's business status via number of sales and charts, control the machine learning processing of the website.

b. Functional Requirement:

Via admins' pages, after log in using emails and passwords, admins can:

+Manage information related to products and customers, admins:

+ Add, update, delete: data in tables such as: products, categories, types, event, stores, customers, admins. Note: if tables in database have a status field (with true or false values), delete function means only changing values of this field to false.

+Follow customers' orders:

+ Have a page to change the orders' status with values (listed base on real order): processing (default - 1), shipping (2) and completed (3). Note: when update status, new value should be validated to make sure previous order of current order not be chosen (example: if current status is 'shipping', then 'processing' should not be chosen). ☐

Can view reports with charts about sales status.

+ Control the machine learning processing:

+ Have a page to run the process and the chart of cost function.

+ Have a page to view suggested products for customer base on the process.

IV. System Requirements:

1. Hardware Requirements:

- Pentium IV CPU 2.80 Ghz or higher.
- 2048 Mb of RAM or higher.

2. Software Requirements:

Windows XP, Win 7, Win 8 or Win 10.

- SQL Server 2017 or higher. - Netbean 7.4.
- JavaEE 7 SDK.
- Java Development Kit (JDK) 1.7
- Glassfish Server 4.0. - Google Chrome 60.0 or higher.

V. Technology:

-JavaEE 7

- Enterprise Java Bean (EJB) 3.0 - Bootstrap 4.1+ Bootstrap 3.4+
- HTML 5 + CSS 3 + Javascript
- Jquery 3.2.1+
- Ajax
- AngularJS

-Json

VI. Scope of project:

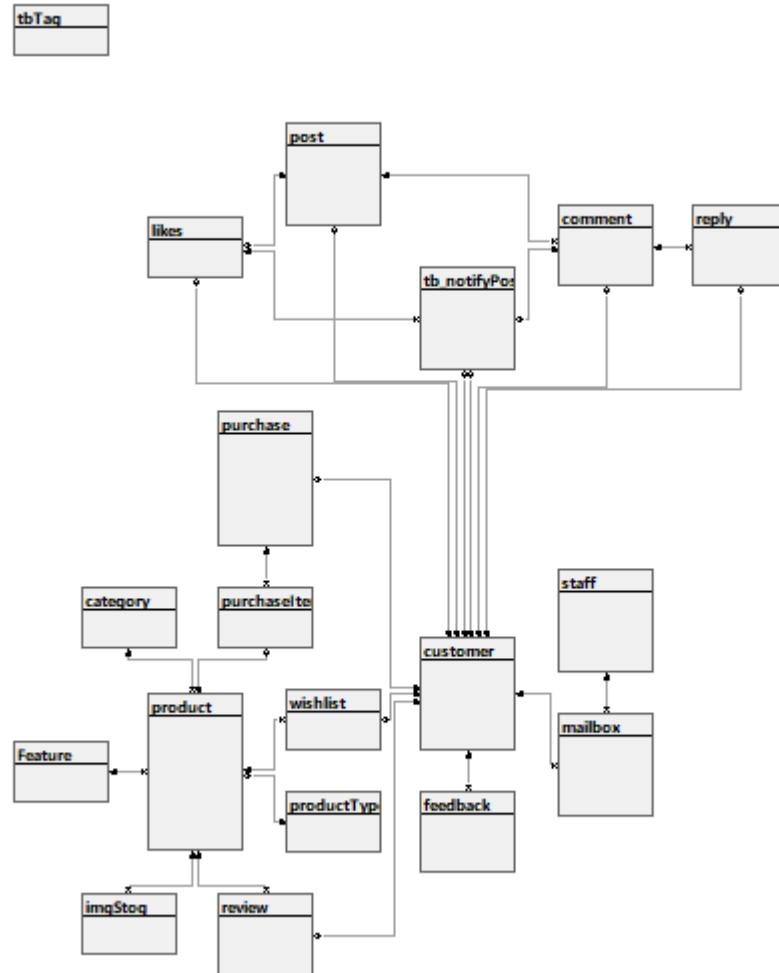

There are some functions not to be included in this project as follows:

- Manage the warehouse: all products with different sizes and colors will be always available.
- Manage promotions: this project will be built base on a sample promotion that apply a discount of 10% for all products.
- Manage the shipping.
- Manage payment methods via credit card.

1. Detail user panel

The screenshot shows a user profile for 'Tu O'Dakm' (1). It includes a placeholder profile picture (4), post count (0 Posts 2), like count (0 Likes 3), and a 'Common tags' section (5) containing 'BirthDay' (6), 'weddingGift', '8/3', and 'ForWife'. Below this is a 'Top author' section (7) listing three users: 'Toomy' (8), 'Mr Johnny', and 'Kelvin', each with a placeholder profile picture.

1. Detail's POST

Best Wedding gift ever 1

This is your gift 3

The screenshot shows a website layout for a gift shop. At the top, there is a navigation bar with links for Sell, Registry, Community, Blogs, Mobile, and Gift Cards. Below the navigation bar is a main menu with categories: Art, Home & Living, Jewelry, Women, Men, Kids, Vintage, Weddings, and More. The 'Home & Living' category is currently selected, indicated by a blue background.

On the left side of the page, there is a sidebar featuring a profile picture of a person and the text "Tu O'Dakm 1 day ago". Below this, there is a section titled "See All Items" with three small images of deer figurines, each accompanied by placeholder text: "Item Name Here", "Lorem Ipsum is simply dummy text of the printing and typesetting industry.", and "More Detail".

The main content area displays several product images. One image shows a man in a purple shirt, another shows two women in dresses, and a third shows a close-up of a hand holding a small object. A red box labeled "4" highlights the first image of the man. A red box labeled "5" highlights the second image of the women.

At the bottom of the page, there is a search bar with the placeholder text "Search your product here (e.g.: Silver diamond ring)". Below the search bar, there is a section for "CRAFTS" featuring a heart-shaped wooden pendant and a butterfly-shaped wooden pendant. To the right of this, there is a section for "JEWELRY" featuring a round clock with a decorative frame. Navigation arrows are located at the bottom right of the main content area.

At the very bottom of the page, there are social media sharing icons and a footer section with the text "Wedding gift" and "best gift".

MORE DETAILS FAQS REVIEWS COMMENT

Fashion has been creating well-designed collections since 2010. The brand offers feminine designs delivering stylish separates and statement dresses which has since evolved into a full ready-to-wear collection in which every item is a vital part of a woman's wardrobe. The result? Cool, easy, chic looks with youthful elegance and unmistakable signature style. All the beautiful pieces are made in Italy and manufactured with the greatest attention. Now Fashion extends to a range of accessories including shoes, hats, belts and more!

IV. Admin's GUI Design

1. Admin and employee

a. Login Pages

The image shows a mobile-style login screen. At the top, the text "Cang cu Cot" is displayed in a large, white, cursive font. Below this, there is a white rectangular input area. On the left side of this area is a black silhouette icon of a person. To the right of the icon, the words "SIGN IN" are written in a bold, black, sans-serif font. Below this section, there are two input fields. The first field is labeled "USERNAME" and contains the placeholder "Email". The second field is labeled "PASSWORD" and contains the placeholder "Password". At the bottom left of the input area, there is a small checkbox followed by the text "Stay Signed in". To the right of the checkbox, the text "Forgot Password ?" is written in a smaller, teal-colored font. At the very bottom of the screen is a large, teal-colored button with the text "SIGN IN" in white. To the left of the word "SIGN IN" on the button is a white arrow icon pointing to the right.

4	Submit	Button		Click	Check login and redirect To Account Page
---	--------	--------	--	-------	---

b. Reset Password

The image shows a user interface for a password reset feature. At the top, the text "Cang cu Cot" is displayed in a stylized font. Below it, the title "Forgot Password ?" is centered, accompanied by a lock icon. A large input field labeled "EMAIL" is provided for entering an email address. Below the input field is a teal-colored button with the text "RESET" and a lock icon. At the bottom left, there is a link "[◀ Back to Login](#)". The background features vertical teal and grey stripes.
